## ASSEMBLY AND USER MANUAL

Dear Customer.

All our products have been inspected and tested at every stage, from the design process to production and delivery, to ensure you enjoy the products and use them reliably for many years.

Before starting the assembly, remove all parts from the box and check them according to the assembly guide. If you have purchased more than one product, assemble them in order to prevent the accessories from getting mixed up.

Before starting assembly, clean each part with a damp cloth. This cleaning will also be sufficient for general use of the product.

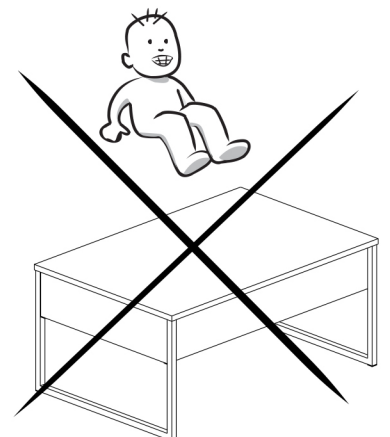

Although the products have been carefully checked and packed, if you encounter a problem during transportation, you can contact us by checking the necessary parts.

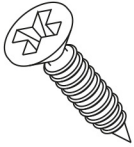

The problem will be fixed free of charge as soon as possible.

Do not use your furniture for purposes other than its intended use. If you are considering a different use, please contact us.

Furniture can be damaged when it comes into direct contact with cold, heat, or moisture. Therefore, prevent your furniture from coming into direct contact with these factors.
